It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Col. 10, line 7: after "group" insert

–, wherein creating one or more instruction bundles is performed in view of one or more of the following rules:

- 1) instructions of the same instruction type will preserve there original order;
- 2) branches will normally appear only in the final bundle of an instruction group;
- 3) for architectures where a number of M execution units is equal or less than a number of concurrent bundles, MM templates will only be used when there are three or fewer instructions remaining in the group;
- 4) instructions are taken in order of their flexibility in terms of where that instruction can be placed in the available bundle types; and
- 5) MBB and BBB templates are avoided when only a single B instruction remains.–

Col. 10, line 65: after "group" delete

“; and

means for dynamically creating one or more instruction bundles based on the number of each possible type of instruction in the one or more instructions of the instruction group”.

Col. 12, line 37: after "claim" delete "25" and insert --27--.
